AF 223

END-MILLING MACHINES

- For machining transoms and door profiles made of aluminium or plastic
- Automatic work sequence
- Large cutting range of up to 400 mm
- Continuously adjustable table height
- Tool diameters of up to 280 mm can be used
- The material stop can be pivoted up to 60° to the left and right. Notching up to 30° (acute angles, left and right). Detent at 90° with index pin.
- Two installation positions for the material stop
- With quick tool change system and "Spindle Lock" for easy tool changing
- Precise, smooth-action and low-wear recirculating ball guides
- Horizontal and vertical pneumatic material clamping provides flexibility
- Depth stop for four different notching depths
- Pulsed coolant system
- Automatic safety curtain

Options

- Extraction system
- 4-fold turret stop for table height
- Digital display
- Cutting tools
- High performance cutting fluid
